The whole month of August we will be offering complimentary haircut with any color service or a complimentary brow wax with a haircut! Offer valid 8/1-8/31 students must present student id

Red Stamp

August is prime time for vacation and wine! While sitting on the beach soaking up the sun, you gotta make sure you have a good looking bun!

Bun: First start off with the braids or even a twist braid. Take the braid/twist and tie it off with a rubber band. After you tie it off, grab all of your hair with the braid and make a messy bun on the bottom of your head or even a high one will look great too! Finish off with some Glam Mist to give some shine!

Beach Waves: You can do this at night or in the morning. At night you will want to have your hair damp and spray some Ocean Spritz and some Bounce Boost and do rope braids and sleep in them. Waking up in the AM with dry hair, put some thermal Image to protect from the heat. Take a 1 1/4 inch wand or curling iron and curl the whole head. Take a pea size pump of Dark Oil and run fingers through hair to loosen curls.

Flower: You can wear your hair straight or curled with this flower look. When curling or flat ironing, make sure to protect your hair with Thermal Image. You can place the flower on either side of your part. Lock in your hair and your flower with Sebastian Shaper Fierce!
